Good morning again Lianne!

Attached is a letter from Protocol Table communities to BC Ferries, BCFA, MoTI and the BC Ferry Commissioner- that we're looking for support/ signature from council and Mayor at your next council meeting.

Councillor Pages is familiar with the background on this, but it's an outcome of the meeting we had with the BC Ferry Authority board in June 2023 and reiterates an invitation for them to come to a meeting in person on Haida Gwaii.

Please let me know if you have any questions and have a good week!

OLD MASSETT VILLAGE COUNCIL

TO:

B.C. Ferry Authority Board of Directors,
BC Ferries Services Executive Team,
British Columbia Ferry Commissioner Eva Hage,
Ministry of Transportation and Infrastructure

15 January 2023

RE: BC Ferries Service to Haida Gwaii, North & Central Coast Communities

We are writing to request a dedicated Northern process for your “Charting the Course, Vision for Coastal Ferries” long-term vision and engagement process that recognizes the uniqueness of the northern ferry routes and their importance to all the residents of the North and Central Coast population.

For the residents of the North and Central Coast, ferries are our highway, providing essential access to the rest of the province. In addition to basic transportation needs we rely on the service for access to medical care, access to most goods and services, and our local tourism economy.

It has become increasingly clear that the North and Central Coast and Haida Gwaii Routes provide different levels of service and meet different needs than the other service regions in the province. This difference is clearly demonstrated in the Coastal Ferry Contract; we are the only routes quantified on a weekly basis, with all others are quantified daily and the majority serviced by numerous times round trips per day. We wish to see this reflected and acknowledged in BC Ferries’ policies and planning. Fleet-wide policies do not reflect this fundamental difference which leaves our areas vastly disadvantaged.

Creating a vision for our coastal ferry system is very important and long overdue; however, it is our view that the “Charting the Course, Vision for Coastal Ferries” process is not positioned to deliver a vision that represents the needs of the North and Central Coast. To date the consultation has been rushed, exclusively online, dominated by input from the South, and has not included meaningful engagement with many stakeholders (including First Nations and local government). This process is too important to get wrong, and based on what we have seen we have no confidence in the process. We need a dedicated visioning process for the North and Central Coast led by the communities the northern ferries service.

Over many years our communities have continually advocated about the critical nature and our reliance on the ferry service for the residents of the North and Central Coast with the Ferry Advisory Committees, the BC Ferry Authority and advocated directly to BC Ferries as well as provincial government. Earlier this year the entire B.C. Ferry Authority Board of Directors accepted an invitation to meet with the Haida Gwaii All-Islands Protocol Table in Prince Rupert. At that same meeting an invitation was extended for representatives from the B.C. Ferry Authority Board of Directors, the Board of Directors, BC Ferries Services Executive Team Members, the British Columbia Ferry Commissioner and Ministry of Transportation to come to Haida Gwaii together and meet with leadership.

We would like to reiterate that invitation and request an in-person meeting this spring. During this meeting we can discuss North & Central Coast ferry issues and the path forward for a dedicated northern ferry vision.

Grant Writer's Background and Qualifications:

Andrew Hudson was hired in January 2019 as a shared grant writer for the North Coast Regional District Areas and the three municipalities on Haida Gwaii: the Villages of Masset, Port Clements, and Daajing Giids. Together, the four local governments fund and manage the grant writer position through the Misty Isles Economic Development Society, a non-profit society created by the four governments in 2008.

For three years before taking on the grant-writer role, Hudson reported for a weekly newspaper on Haida Gwaii, where he closely followed the work of the regional district and municipalities. Besides working as a reporter in Toronto and B.C.'s Bulkley Valley, Hudson has held several other positions that require attention to detail and clear writing. Those include work as a copy editor for Desjardins Capital Markets, as a transcriptionist for post-secondary students who are hard of hearing, and as a teacher of English as a Second Language. Hudson holds an honours Bachelor of Arts degree from the University of Toronto and a Journalism Certificate from Langara College.

ALTERNATIVE PROJECT DELIVERY

CCDC 5B

- Public Request for Proposals issued for a Construction Manager who will work with the Village to advance the design.
- Allows for ongoing input into the constructability of the design
- Scheduling and supervision is done by the CM
- Key advantages:
 - Flexibility - changes can be made easily and with minimal cost implications
 - Schedule can be accelerated since all design need not be complete before initial tender packages are issued
